## Report of Board of Education.

---

To the Citizens of Seabrook we respectfully submit this report.

It was intended that the school year should consist of thirty-five weeks but on account of the prevalence of measles in the town the schools were closed three weeks before the end of the term. This will probably make a longer term the coming year, we think there has been a marked improvement in the schools all along the line especially in regard to dismissals and in attendance. We have had what we consider a good staff of teachers and the scholars have been very industrious. The order and discipline in the schools have been very good. At the commencement of the year I found the schools very poorly supplied with books and the teachers, did not have very much material to work with, but they are now very well supplied. The school rooms are in a very good condition, with the exception of the Boyd and Farm schools which need new seats very much, there should be something done in regard to this matter. My relations with the board and also the teachers and scholars have been very harmonious and I regret very much that I am compelled to go away. I have enjoyed very much, the year that has passed, and gone, I hope that the year to come will bring more marked improvements than the year that has passed.

ARTHUR E. WALTON,

For the School Board.
